

Anchor Sandwich Co. - Environmental Policy

Introduction

Anchor Sandwich Co. is a leading specialist in the manufacture and distribution of sandwiches, rolls, baguettes, and salads to various sectors, including Healthcare, Education, Leisure, Workplace and Coffeeshops across the UK. We recognise the importance of minimising the environmental impact of our operations and are committed to taking proactive steps to reduce our ecological footprint.

We acknowledge that our activities—such as the use of raw materials, energy consumption, emissions, and waste generation—can impact the environment. We strive to minimise these effects as much as possible through efficient processes and sustainable practices.

Environmental Commitment

Anchor Sandwich Co. is dedicated to maintaining sustainable practices across all areas of our operations, particularly within the sandwich manufacturing industry. Our commitment includes:

- **Continual Improvement:** We aim for ongoing enhancement of our environmental performance through regular evaluation and the implementation of best practices.
- **Pollution Prevention:** We are committed to taking effective measures to prevent pollution, including reducing emissions to air and water, and managing waste responsibly.
- **Legal Compliance:** We ensure strict adherence to all applicable environmental laws, regulations, and industry codes of practice to maintain environmental integrity.

Environmental Objectives & Targets

To support our environmental goals, Anchor Sandwich Co. has established the following key objectives:

1. **Resource Efficiency:**
 - We will make efficient use of natural resources by reducing energy and water consumption, minimizing waste, and maximising recycling opportunities.
2. **Waste Management:**
 - We will meet our duty of care responsibilities by ensuring the safe handling, transportation, recovery, and disposal of all waste materials in accordance with relevant regulations.
3. **Sustainable Materials:**
 - Where commercially viable, we will use recycled construction materials, promoting the use of environmentally responsible products.

4. Transport Efficiency:

- We will reduce transport-related emissions by minimising unnecessary travel and maintaining the efficiency of our fleet through regular vehicle servicing.

5. Supply Chain Collaboration:

- We will engage with suppliers to ensure they recognize and address the environmental impact of their products and the transportation of goods.

Sustainable Packaging & Recycling Initiatives

We are committed to reducing the environmental impact of packaging materials. Our objectives include:

- Increasing the proportion of packaging that is recycled and ensuring our suppliers actively promote the use of sustainable and recycled materials.
- Investigating and adopting innovative packaging solutions to reduce waste and improve recyclability.

Policy Review and Communication

Anchor Sandwich Co. will review and update this policy annually, considering any changes in legislation, company operations, or other relevant factors. We will communicate this policy to all employees and ensure they receive the necessary training to raise awareness of environmental issues and support our sustainability goals.
